Announcing Our Newly Optimized Website

Our new website supports our mission to provide clients with reliable IT insights, valuable IT solutions and exceptional IT service.

EXPANDING OUR UNWAVERING COMMITMENT TO TOTAL CLIENT SATISFACTION...

with a “Total-ly” NEW WEBSITE!

OUR WEBSITE FEATURES:

- ... new helpful content
- ... a new, user-friendly interface
- ... easy access to client login
- ... videos and event listings

Our site is new, but our web address is the same. Go and check it out! <https://total.us.com/>

We'll be updating content regularly

Our site will continually feature new case histories, product data sheets, videos and some surprises too!

You'll receive email updates, but check back often to see for yourself.

Total's March on Hunger

Total is proud to have been a part of the annual Island Harvest "March on Hunger" Food Drive as a member of the Long Island Village Clerk's & Treasurers Association (LIVCTA).

This year, the LIVCTA collectively donated 1,212 pounds of food which yields about 9,050 meals for those in need on Long Island.

Ransomware: Are you protected?

One of best things a business can do to defend against ransomware is to educate its employees. Statistics indicate that one in five employees will open and click on emails containing malware that can infect an entire business network, encrypting files and making them inaccessible until a ransom is paid.

Businesses can also protect themselves by implementing a business continuity solution that incrementally backs up data allowing you to restore it to a point in time before a ransomware infection. Watch our video on the homepage of our website (<http://total.us.com>) on how Total helped save a client from a costly ransomware attack.

Call Total at 877-777-8093 to find out more about our Cybersecurity Awareness Training and our Business Continuity Solution, both critical components of our cybersecurity solution, Total's Layered Defense.
